

# Seasonal Hayfever?

Fexofenadine 120mg (Allevia<sup>®</sup>) is now available to buy over the counter for relief of seasonal hayfever symptoms in adults and children aged 12 years and over.

Fexofenadine 120mg tablets are now reclassified as a General Sales List (GSL) medicine which can be purchased in pharmacies and some shops for relief of seasonal hayfever symptoms, and may be cheaper than a prescription.

**This reclassification means you may not need a prescription or an appointment with the GP**

Fexofenadine may not be appropriate if you have certain medical conditions. Always check with your pharmacist and read the patient information leaflet before taking this medication.

Talk to your pharmacist if you need further advice on hayfever treatments
