

March 2019 Edition

Chipping Campden Surgery Monthly News Flash

Parkrun Practice

We are now signed up as a “Parkrun Practice” in partnership with the Moreton-in-Marsh parkrun. Please ask us for more information.

Annual Patient group meeting

We will be holding the annual patient participation group meeting on Wednesday 24th April 2019 from 6 30pm – 8pm at The Court Room, Old Police Station, Chipping Campden. If you have an interest in the priorities for the coming year and wish to attend, please confirm by contacting Teresa Newman at the surgery.

On-line access for booking appointments and prescription ordering

If you are not already signed up for this, please consider asking reception or dispensary, the next time you are in the surgery, for an online access registration password. You will need to bring in photo ID to cover data protection rules. The benefits of this are that you can order prescriptions and book routine appointments at your convenience, without having to telephone or pop in to the surgery.

Carers

If you are a carer, you are entitled to an annual carer health check at the surgery, with either Sister Linney, our Carer’s lead Nurse, or Jo Spicer, our Social Prescriber. Please ask reception for further details and to book your check.

Carer Support

The Herbert Protocol is a scheme whereby relatives or carers who look after someone with dementia or vulnerable people can download and complete a form with personal information and a photograph to send to police. If the patient goes missing, the police then already have all of the information. Gloucestershire police and Chipping Campden Town Council support this initiative.

Keep Safe scheme

The surgery is also signed up to the Keep Safe scheme - <http://keepsafeglos.org> - contact Teresa Hemingway: info@keepsafeglos.org.uk

The Keep Safe Scheme in Gloucestershire was set up in July 2010 to support people with learning disabilities in Cheltenham, Gloucester, Stroud, Cirencester, Cotswolds, Tewkesbury and the Forest of Dean.
