

Newsletter June 2024

Staff

We would like to wish our very best to Janet, who worked with the practice for 13 years as a Medical Receptionist and Phlebotomist. Janet left the practice in mid-May to concentrate on her very worthwhile work as a carer.

We would like to welcome our new receptionist Jenny to the team.

Letter for patients about General Practice

We have produced a letter for patients, with the help and support of the surgery Patient Participation Group, which will be available on the website and in the practice, explaining the current state of General Practice, in order to help patients understand the issues we are facing. We will be sharing more information in future newsletters.

Mental health

We now have access to a specialist Mental health Nurse who can speak to patients aged 18 and over as a form of quick access to help with their mental health. Appointments can be booked via our receptionists.
