

Chipping Campden Surgery Newsletter July 2023

Recycling

We have been successful in securing a grant from the Town Council to enable us to reintroduce tablet packing recycling, this will allow us to continue with this for the rest of the year, we are very grateful to the Council.

Staff updates

We currently have a treatment room nurse vacancy and are recruiting to this role.

Patient Participation Group

As a group of patients, we are looking to set up a small working party of patients who are willing to represent the wider patient population and consult with the surgery on priorities for patients and the provision of services for patients and the practice over the coming year. The working party will have the opportunity to meet with key staff at the surgery on a regular basis to discuss the medical needs of our local community.

If you would like to be part of that working group, please email Sue Pritchard (Chair)

suewildpritchard@gmail.com

Second handbook sales

Thanks to the generosity of people donating to second handbooks in the surgery waiting room we have been able to give £50 to the Open Gardens who support two local charities, Campden Home Nursing and Campden Edge.

Equipment

We are due to have all our equipment calibrated and would like to remind patients who have had equipment lent to them to return them to the surgery so that they can be included in the process, this includes pulse oximeters, blood pressure machines and nebulisers, thank you for your cooperation.
